June 5th

Board Of Director's Meeting at **Demetri's Restaurant, in Deerfield** —resulted in some updated changes. Several issues were discussed at length ; motions were made and unanimously approved . With due respect of privacy today, our neighborhood directory (which lists all paid members and is sent to all paid members) will be eliminated—therefore publishing of names, addresses and phone numbers [many being cell phones] will not be distributed in general — unless specially requested, and it would be sent, to a registered member only. You must call the Editor for a copy.

The cover of the Directory, with general information, will be sent to all registered members, this year.

In the near future the newsletter, announcements, photos and events will be posted on Glenbrook Countryside's web site, with no password required.

- **All efforts at this time, to contract with just one waste disposal service, have been unsuccessful.**

Several disposal company's now service Countryside: *Waste Management, Groot, Eola, Advance, PrarieLand, and LRS- [Lakeshore Recycle System], that continues to contribute to the existing problems, e.g. traffic, safety, road deterioration, which will lead to higher taxes for road resurfacing.*
